3. If the above personnel cannot be reached, contact:

Office of Emergency Services Warning Center (24 hrs) (800) 852-7550 or (916) 845-8911
 When reporting a water quality emergency to the Warning Center, please ask for the State Water Resources Control Board – Division of Drinking Water Duty Officer.

An appropriate method of notifying small water system users of imminent danger from unsafe water must be used. Users must be informed that water must not be consumed until it is safe to do so. Please acknowledge the methods you will use to notify your water system users in the event you must initiate your Emergency Notification Plan.

I propose to notify my water consumers by the following method(s):

- | | |
|--|--|
| <input type="checkbox"/> Post warnings in a conspicuous place
<input type="checkbox"/> Door to door contact
<input type="checkbox"/> Telephone
<input type="checkbox"/> I propose to notify my water consumers by the following alternative method: | <input type="checkbox"/> Shutting off all water
<input type="checkbox"/> Written handouts |
|--|--|

Consideration must be given to special organizations (such as schools), non-English speaking groups, and outlying water users. Ensure that the notification procedures you describe are practical and that you will be able to actually

implement them in the event of an emergency.
