Your Internet browser may be loading the page from its cache and may not reflect the most recent data. Please refresh your page and/or cache to view the most current version of the data. This dashboard provides surveillance information about the Coronavirus Disease 2019 (COVID-19). Data used to produce this dashboard is updated daily but is considered preliminary and subject to change as a result of ongoing investigations being conducted by the Imperial County Public Health Department.

Please note that only diagnostic tests from approved laboratories are reflected on this dashboard.

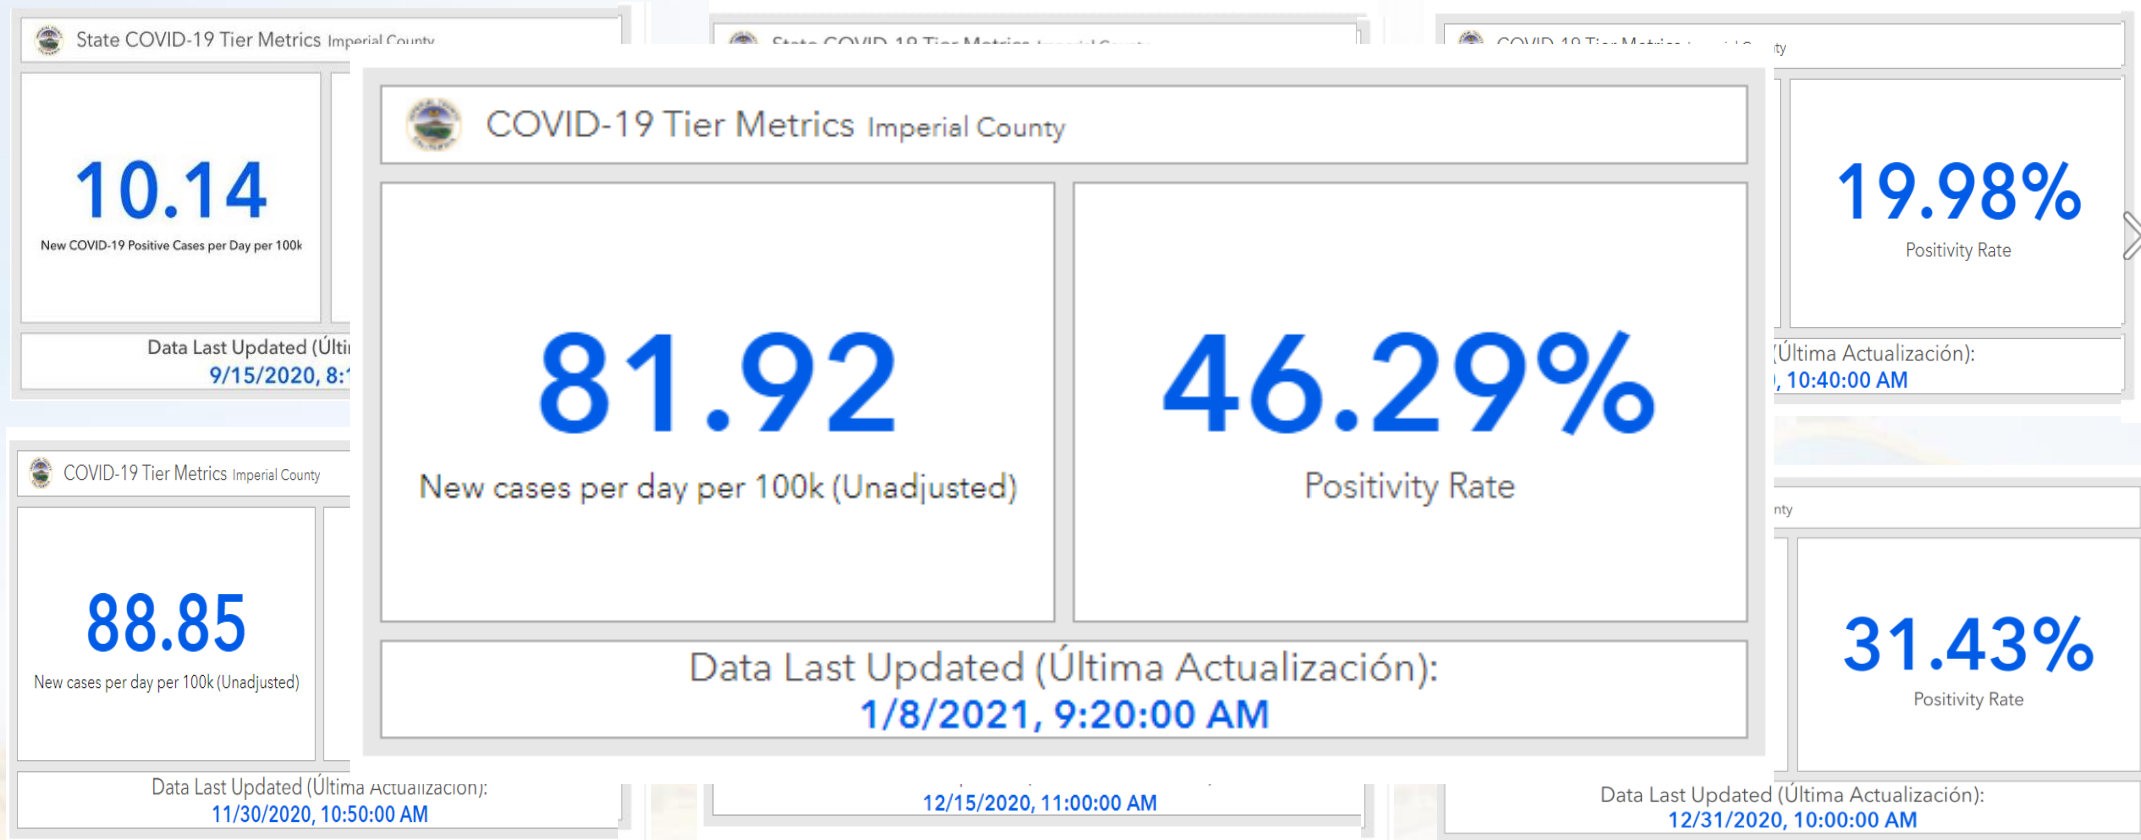

Cases by Location

92231 Total Cases: 6,586 Active Cases: 392 Total Recovered: 6,041 Deaths: 152
92243 Total Cases: 6,064 Active Cases: 465 Total Recovered: 5,458 Deaths: 141

92274 Total Cases: 350

Local Dashboard Metrics

Source: <http://www.icphd.org/health-information-&-resources/healthy-facts/covid-19/covid-19-metrics/>

The figures above differ from the state calculations in the following ways:

Labs are counted by result date, Includes inmate population, case rate does not include an adjustment factor

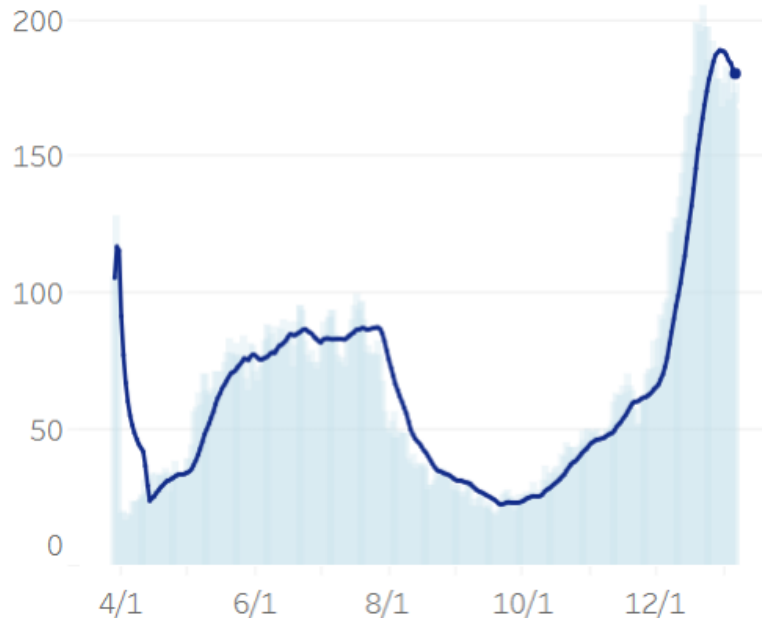

COVID-19 Hospitalized & ICU Availability

<https://covid19.ca.gov/state-dashboard/>

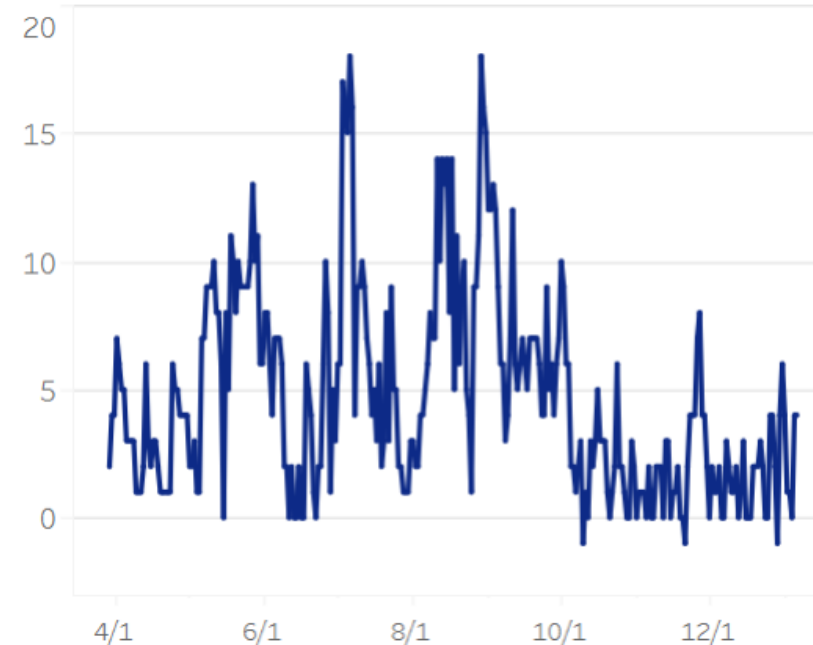

Hospitalized

ICU

176 COVID-19 hospitalized patients
+3 patients
1.7% increase from prior day

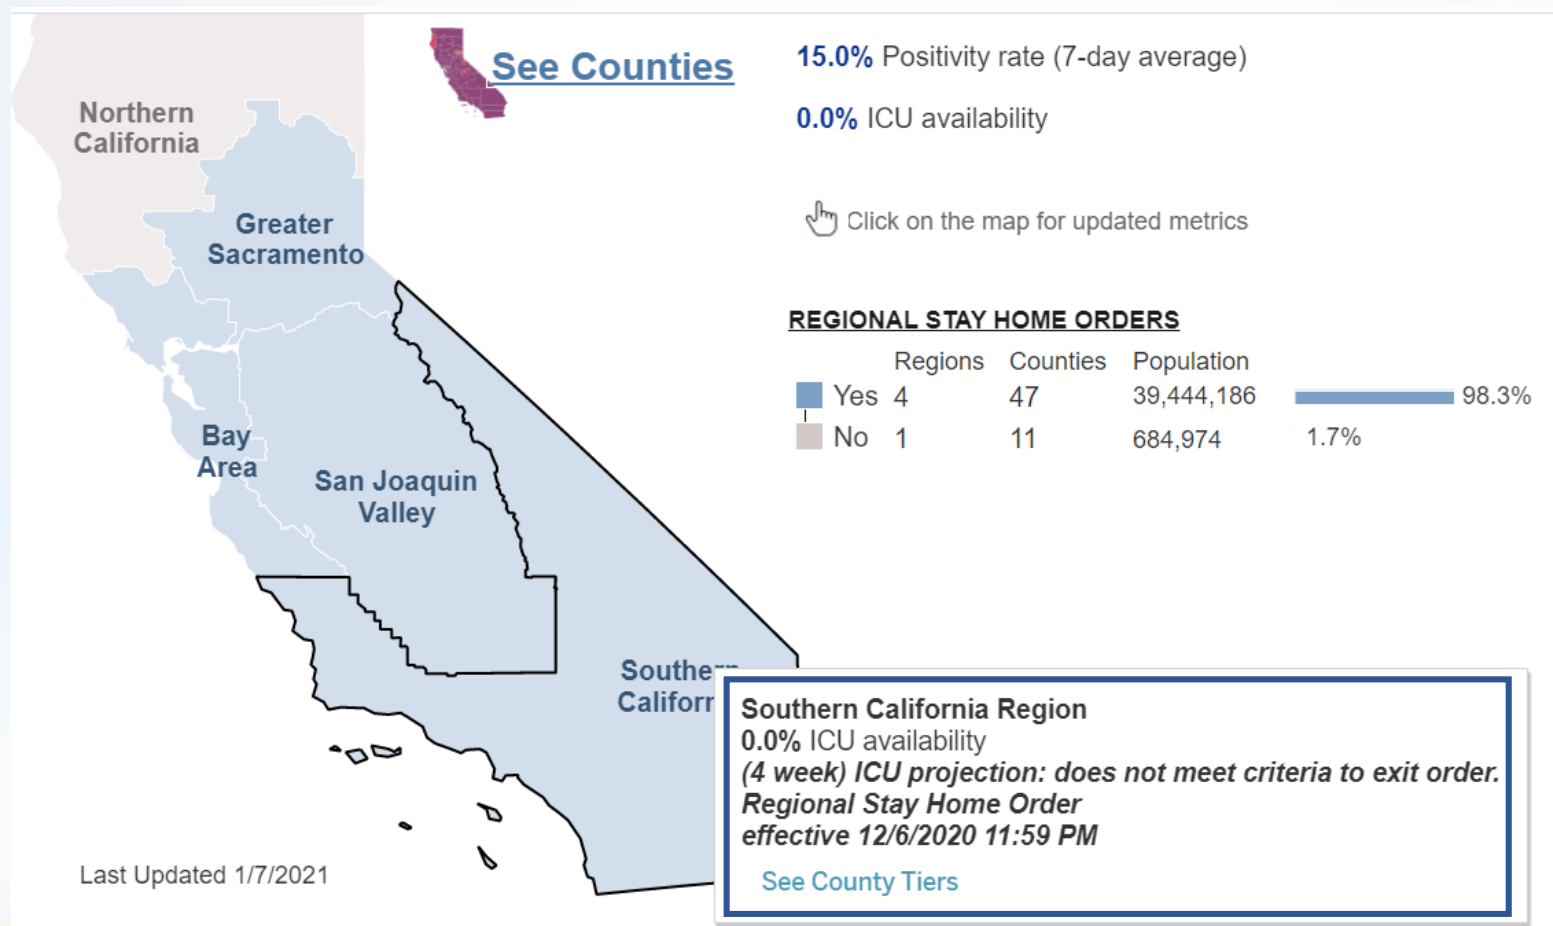

4 ICU beds available
0 increase from prior day

- 2-day lag
- Data changes by the hour

ICU Availability

Source: <https://covid19.ca.gov/stay-home-except-for-essential-needs/#regional-stay-home-order>

Southern California Region: Imperial, Inyo, Los Angeles, Mono, Orange, Riverside, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, Ventura

- Hospitals submit information on the total number of available staffed ICU beds daily to the state.
 - Information includes both existing staffed ICU beds & staffed ICU surge beds. To calculate regional ICU capacity, the total number of adult ICU beds is calculated by removing neonatal ICU beds (NICU) and pediatric intensive care unit beds (PICU), as well as standardizing current adult ICU capacity

COVID-19 Vaccine Allocations

Federal Allocation	CDPH Allocation (Multi-county Entities)	LHD Allocation
All but 9 tribal clinics	Kaiser Permanente	All non-multi-county entity (MCE) healthcare facilities
VA (CalVets enrolled in LTC Pharmacy Program)	Dignity Health	Contracted ICE Facilities in Orange, Imperial, Kern and San Bernardino
Federal Bureau of Prisons (except Taft in Kern Co)	Sutter Health	
	Adventist Health	ICE beds in local facilities
Dept of Defense	Providence St. Joseph Health	DDS-run residential facilities DDS contracted regional centers
Dept of State	UC Health	LTCF not enrolled in LTC Pharmacy Partnership
LTCF participating in LTC Pharmacy Partnership	AHMC Healthcare Inc.	Taft Federal Correctional Institution (Kern Co)
Federal Bureau of Prisons (except Taft in Kern Co)	CDCR	9 tribal clinics that opted out of Federal allocation
Non-contracted ICE Facility: Otay Mesa	State Hospitals	Source: CDPH

Vaccine Prioritization Phase 1a

<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/CDPH-Allocation-Guidelines-for-COVID-19-Vaccine-During-Phase-1A-Recommendations.aspx>

During Phase 1a of allocation, COVID-19 vaccine should be offered to the following persons in California:

1) Persons at risk of exposure to SARS-CoV-2 through their work in any role in direct health care or long-term care settings.

- This population includes persons at direct risk of exposure in their non-clinical roles, such as, but not limited to, environmental services, patient transport, or interpretation.

2) Residents of skilled nursing facilities, assisted living facilities, and similar long-term care settings for older or medically vulnerable individuals.

Vaccine Subprioritization Phase 1a

<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/CDPH-Allocation-Guidelines-for-COVID-19-Vaccine-During-Phase-1A-Recommendations.aspx>

TIER 1 – ONGOING

- Acute care, psychiatric and correctional facility hospital staff
- Paramedics, EMTs and others providing emergency medical services
- Dialysis center staff
- *Staff of residential and inpatient substance use disorder (SUD) treatment and mental health facilities**
- Skilled nursing facilities, assisted living facilities, and similar settings for older or medically vulnerable individuals (*special needs group-living is equivalent to a nursing home or assisted living*)*

TIER 2 – STARTED

- Staff of intermediate care facilities for persons who need non-continuous nursing supervision and supportive care *defined by the Department of Healthcare Services*
- Home health care and in-home supportive services staff
- Community health workers, including promotoras(es)
- Public health field staff *who conduct field work including but not limited to immunization, communicable disease in-person management, in-person contact investigation and tracing, and in-person COVID testing*
- Staff of primary care clinics, including Federally Qualified Health Centers, Rural Health Centers, correctional facility clinics, and urgent care clinics
- *Staff of Outpatient SUD treatment and mental health facilities, and crisis stabilization units**

TIER 3 – HAVEN'T STARTED

- Other settings and health care workers, including:
 - specialty clinics;
 - laboratory workers;
 - dental and other oral health clinics;
 - pharmacy staff not working in settings at higher tiers
- *Mortuary service industry workers**

**Recently added by the State of CA*

Vaccine Prioritization Phases 1b & 1c

<https://covid19.ca.gov/vaccines/>

Individuals who have higher risk for severe disease or death (due to age or other factors), who are unable to work at home, who live or work in geographic areas that have been highly impacted, or who are most likely to spread disease to other workers or to the public.

***Pending Additional Guidance**

Phases 1b & 1c – **pending guidance**

<https://covid19.ca.gov/vaccines/>

Phase 1B – **HAVEN'T STARTED**

1B - TIER 1:

- Individuals 75 and older
- Those at risk of exposure at work in the following sectors: education, childcare, emergency services, and food and agriculture

1B - TIER 2:

- Individuals 65 -74 years of age
- Those at risk of exposure at work in the following sectors: transportation and logistics; industrial, commercial, residential, and sheltering facilities and services; critical manufacturing
- Congregate settings with outbreak risk: incarcerated and homeless

Phase 1C – **HAVEN'T STARTED**

- Individuals 50 -64 years of age
- People 16-64 years of age and have an underlying health condition or disability which increases their risk of severe COVID-19
- Those at risk of exposure at work in the following sectors: water and wastewater; defense; energy; chemical and hazardous materials; communications and IT; financial services; government operations /community-based essential functions

Electronic Baseline Assessment for Phase 1a and Subsequent Priority Groups

- Launched Jan 5th
- Employers to submit information to Public Health
- Available www.icphd.org, under Guidance & Resources for Businesses & Employers
- Encouraging employers to submit by Jan 21
- Ongoing assessment

Employer COVID-19 Vaccine Assessment Portal

The Imperial County Public Health Department is collecting information from local employers to get a better understanding of their respective business, employees, and interest in potentially hosting a vaccination clinic on their site. As a local business, we are hoping that you will take a moment to answer a few questions that center around the

- a) number of different physical locations you have,
- b) number of individuals you employ and their respective risk level,
- c) number of your employees who are NOT interested in receiving a COVID-19 vaccine,
- d) your interest and willingness to host a COVID-19 vaccination clinic at your work site, and
- e) your level of interest and willingness to participate in county-wide COVID-19 Mass vaccination clinics (help with clinic set-up, traffic control, or other tasks). Please, if possible, answer the follow questions by 8 pm, January 15, 2020.

If you have any questions about the questions please call Aracely Carrillo-Torres, Health Program Coordinator, at 1-442-265-1443 or email at aracelyctorres@co.imperial.ca.us

Enrolled

- Public Health Department
- 2 Hospitals
- 1 Federally Qualified Health Center
- 5 Dialysis Centers
- 2 Correctional Facility Clinics
- 1 Primary Care Provider
- 4 Pharmacies
- Indian Health Services – to receive vaccine directly from the federal government

Pending Enrollment

- 4 Clinics (including 2 Detention Facility Clinics)
- 24 Primary Care Providers
- 12 Pharmacies

COVID-19 Vaccine Community Survey Results

5,298

Individuals
responded to
the survey

74%

Agree that they get
vaccinated because they
protect other people
from getting infected

40%

Are confident that the
COVID-19 vaccine is safe

42%

Are unsure at this time of the vaccine's safety

58%

Plan to be vaccinated when a COVID-19
vaccine is available, while 28% are
unsure if they will get vaccinated

7%

Agree that the COVID-19 disease is NOT
serious enough that they need to get
vaccinated, while 5% don't know & 14%
neither agree or disagree

93%

Have a means of transportation to
get to a vaccination site

33%

Prefer to receive the vaccine at a
drive-thru clinic, 32% at a doctor's
office, 15% at a walk-in clinic close
to home, 13% at a pharmacy & 7%
at the health department

74%

Prefer a weekday (25% anytime
during the day, 17% in the evening,
17% in the morning, & 15% in the
afternoon), while 26% prefer to
receive their vaccine on a weekend

Vaccines

Last updated December 21, 2020 at 5:21 PM

COVID-19 vaccination is one of the most important tools to end the COVID-19 pandemic. The State will distribute a safe and effective COVID-19 vaccine fairly to everyone who wants it in all 58 counties of California.

Vaccinate **ALL** 58

Together we can end the pandemic.

On this page you will find:

Vaccinate **Imperial**

Together we can end the pandemic.

CDC Vaccine Finder: adding COVID-19 vaccine soon

<https://vaccinefinder.org/find-vaccine>

The image shows a screenshot of the CDC Vaccine Finder website. The main header includes the 'VaccineFinder' logo, navigation links for 'Home', 'Find Vaccine', and 'FAQ', and a 'VISIT MEDFINDER' button. The main content area features a large banner with the text 'PROTECT YOUR FAMILY AND COMMUNITY' and 'Get vaccinated at a location near you', followed by a prominent 'FIND VACCINES' button. Below this is a link that says 'I'm looking for flu medication →'. A blue arrow points from this button to a modal window titled 'Select Vaccines'. This modal window is divided into two columns: 'ROUTINELY RECOMMENDED' and 'FLU'. The 'ROUTINELY RECOMMENDED' column lists various vaccines with checkboxes, including DT, DTaP, Hepatitis A (18+), Hepatitis A (child), Hepatitis B (18+), Hepatitis B (Child), HIB, HPV (9-valent), Meningococcal (MenB), Meningococcal (MenACWY), MMR, MMRV, Pneumococcal (PCV13), Pneumococcal (PPSV23), and Rotavirus. The 'FLU' column lists 'Flu Nasal Spray', 'Flu Shot (18+)', 'Flu Shot (65+)', 'Flu Shot (Egg free)', 'Flu Shot (Adult-only Egg free)', and 'Flu Shot (Child)'. There are also sections for 'TRAVEL' vaccines like Cholera, Dengue, Inactivated Polio Vaccine, Japanese Encephalitis, Rabies, Typhoid (VACP Shot), Typhoid (Oral Vaccine), and Yellow Fever. At the bottom of the modal are 'Select All', 'Clear All', and 'ADD VACCINE' buttons. In the background, a map of the United States is visible, and a person is seen holding a tablet.
