IMPERIAL COUNTY IMMUNIZATION REGISTRY

(Disclosure Statement)

We are authorized members of the Imperial County Immunization Information System. This system permits the sharing of a computer record of your child's immunization dates no matter where they are given. At any time you and your doctors can see what immunizations your child has received and which immunizations are needed now. It will help you and your doctor protect your child from serious illnesses like polio, whooping cough, measles and meningitis.

The information in the Imperial County Immunization Registry computer is confidential. Only authorized members may review it. Authorized members include local or state health departments, medical care providers, and those agencies who need to know what immunizations your child has had (schools, child care facilities, family child care homes, WIC programs, health care plans, and the County Health and Human Services Agency "CalWORKs"). We will not give this information to any other person or group.
