Blueprint for a Safer Economy

Last updated January 25, 2021 at 12:46 PM

Regional Stay Home Order ends January 25, 2021

Counties return to their appropriate tier under the Blueprint for a Safer Economy. Other state orders are still in place. See details on the [About COVID-19 restrictions page](#).

California has a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities.

COVID-19 Vaccine Prioritization Overview

Updated February 4, 2021

Subject to change based on information from the California Department of Public Health or State of California

Phase 1a Clarification

<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/VaccineAllocationGuidelines.aspx>

From CDPH guidance, Feb 4:

Are family member caregivers of regional center consumers eligible as healthcare providers for Phase 1A?

Yes, family member caregivers with direct risk of COVID-19 exposure who care for regional center consumers at high risk of COVID-19 complications and related fatalities including the following conditions: cerebral palsy, down syndrome, epilepsy, and individuals who have specialized health care needs, including dependence upon ventilators, oxygen, and other technology are eligible. This does not include other family members within the same household who do not provide direct care to the regional center consumer. Eligible family members must obtain documentation from their regional centers, verifying the qualifying condition of the family member cared for and caregiver status.

Imperial County Public Health Department will coordinate with the San Diego Regional Center. Details on clinics for caregivers of regional center consumers are forthcoming.

COVID-19 Vaccine % Reached

TIER 1 – 2,430 highest/high risk (99% reached)

Imperial County Public Health vaccinators

EMS/EMT

Hospitals

Dialysis Centers

Residential and Inpatient SUD Treatment facilities

Residential and inpatients of mental health/vaccinators
